Objective

Motivated and detail-oriented front-end web developer seeking an attachment opportunity to apply my knowledge and skills. As a software engineer, I can work independently and collaboratively, learn new technologies quickly, and adhere to best practices and standards.

Skills & Technologies

- Front-End Development: HTML, CSS, JavaScript, Bootstrap,TypeScript, Tailwind Css

- Responsive Design: CSS Media Queries

- Version Control: Git & GitHub

- Tools & Software: VS Code, Chrome DevTools

- UI/UX Fundamentals: Creating intuitive and user-friendly interfaces

Education

Kirinyaga University

Degree in Software Engineering

(Expected Graduation: 2027)

Projects

Kingstone Hospital Website

- Developed a five-page hospital website with a professional and modern design.

- Implemented a cool and authentic services page with space for images.

- Designed a contact form with a blue and white theme for user inquiries.

Multi-Page Website Assignment

- Created a five-page website incorporating images, videos, and audio using HTML and CSS.

- Applied CSS media queries to enhance responsiveness.

Work Experience

Attachment Position - Web Developer (Seeking Opportunity)

- Looking for hands-on experience in front-end web development.

- Excited to work in a professional setting and contribute to real-world projects.

Certifications & Training

- Completed HTML & CSS courses

- Completed JavaScript and Bootstrap

- Typescript

Soft Skills

- Problem-Solving & Analytical Thinking

- Teamwork & Collaboration

- Strong Attention to Detail- Effective Communication
